

wherein said maximum driving distance is determined by hitting the ball with each of the golf clubs a minimum of ten times, and calculating the maximum distance driven; and

a method for subtracting said constant yardage from the total distance of each hole on the course.

5. (AMENDED) A method for improving one's golf game as in claim 4, wherein the user chooses the club by use of said maximum driving distance and the calculations derived from claim 4 from subtracting said constant yardage from the total distance of each hole on the course.

6. (CANCELED)

7. (CANCELED)

8. (CANCELED)

9. (CANCELED)

10. (CANCELED)

11. (NEW) A method for improving one's golf game using golf clubs, balls, a golf course and golf holes, comprising:

determining the maximum driving distance of each of the clubs;

determining constant yardage, from said maximum driving distance, and the longest par four hole on the course;

wherein said maximum driving distance is determined by hitting the ball with each of the golf clubs a minimum of ten times, and calculating the maximum distance driven; and
